June Graduates

The winter 2019 Bible school class has graduated, and these students are now preparing for their ministries. This class is an example of the primary purpose of this ministry. They are why we do what we do. *Hongera* (Congratulations)!

2019 Seminar

This year's annual seminar was a blessing and encouragement to all who attended. Each June, former Bible school graduates gather to be refreshed by a week of teachings and testimonies.

Dear Friends of IEO,

This has been a year of challenges, as you are likely aware. The biggest hurdles have been the building of a new block wall around the orphanage, and now we face the total failure of crops at the farm. The drought wasn't just local; it has affected people throughout Tanzania and in Kenya to the north. **"Yet in all these things we are more than conquerors through Him who loved us"** (Rom. 8:37).

Bwana asifwe (praise the Lord)! The wall is now complete! Watch for more details in the CHO newsletter. Now individuals and churches are sending funds for the corn and beans daily, which is a tremendous blessing. Purchasing corn and beans requires traveling 300 miles or even farther as food becomes scarcer (and more expensive) by the day. Trucking is an additional expense, but we are trusting that we will receive enough funds to cover all the costs. Thank you for your response!

Will you join us in agreeing with the following prayer, which was sent by a supporter in North Carolina?

1. *That the Lord will supernaturally stretch their provisions as He did in 1 Kings 17:7-15 for Elijah, the widow, and her son.*

Usa River Crusade

This summer Bishop Eliudi Issangya held a crusade at Usa River. About 50 new believers were added to the local church!

Women's Revival

Hundreds of women traveled to Dodoma, Tanzania's capital, for a women's conference in August.

New Church Plant

Bishop Eliudi and his wife, Lucy, attending a church dedication

- 2. That the Lord will supernaturally lead the staff to the best quality and price of provisions and protect the ministry and its resources.
- 3. That He will provide drinking water ... their wells will not run dry!
- 4. May this not be a disaster, but a blessing as they turn to God and develop a deeper intimacy with Him as He transforms fear into faith.
- 5. May He hover over this ministry like a mother hen protecting her chicks.
- 6. May they experience the heart of Father lovingly providing for His family!

Newest Bible School Students

The current Bible school class numbers 130 students, the largest class to date since the inception of the school in 1983! Some had never experienced water baptism, and many arrived with only the clothes on their backs. The photos below show students receiving hygiene kits and clothing as well as being baptized shortly after their arrival in July.
