## Milestones to Celebrate!

Five CHO students graduated from Form 4, the equivalent of high school, in October. Congratulations to Sudesi, Tobias, Frank, Eliza, and Elizabeth! They will take a break from academics to attend the January-June 2023 class at the Bible school. Please pray for their future education, careers, and ministries as the Lord directs their steps.

In addition, 8 students completed Form 6 (similar to junior college) at Hebron and are attending various colleges and universities. We now have 20 students in college, one in trade school, and five trade school or college graduates who have completed their education and are gainfully employed or running their own businesses.

One of our trade school graduates, Stephano, is working, married, and has a baby (see photo on page 2). He recently purchased a welder and grinder with funds from his sponsor for his career in masonry and welding.

Our CHO kids are growing up, and we continue to pray for the Lord's timing to bring in a new group of younger orphans to join the CHO family. However, it is a difficult and uncertain time in Tanzania due to drought, food shortages, and inflation. Let's continue to pray for God's provision and guidance for our CHO staff, children, and students as well as for the entire nation of Tanzania.

## Shoes That Grow

The primary kids love their new **Shoes That Grow!** Thank you again to everyone

who contributed toward purchasing these durable shoes from **Because International**. They grow five sizes and will last several years. What a blessing!

## Sponsor Letters Delivered

Jan George delivered sponsor letters to the orphans while visiting Tanzania in October. Her trip was difficult in many ways, but through the various hardships the Lord worked and provided. Thank you for your prayers over her trip!

## Praises & Prayer Requests

- Continue to pray for our 10 students who moved from the orphanage complex in Arusha to Hebron boarding school in Sakila in October as they transition to both the change of location and academic load.
- The cost of beans, rice, corn, and cooking oil have all increased. Pray for the orphanage and the country of Tanzania as a whole as they deal with the hardships of inflation in an already unstable economy.
- We have many praise reports as the students grow and discover their passions, callings, and careers. What a blessing that they have these opportunities and options, thanks to their sponsors. All praise and glory to Jesus!

## Updates & Upgrades

Steven and Kierstin Issangya have been busy raising funds for upgrades and improvements, including fresh paint, shelving units, trunks, and a sturdy new gate for the orphanage's main entrance. Enjoy the photos that show off the bright colors and happy, smiling faces!
