Kitchen Project Update

Outside of new CHO kitchen with water pump and heater

Once again we say “Bwana asifiwe” (praise the Lord) for His goodness and faithfulness! He has provided for the new CHO kitchen and dining hall.

The last items needed are metal shelving, serving and prep tables, chairs, and utensils.

Our staff now has the capability to cook a much larger volume of food without the previous concerns of smoke inhalation or burns from cooking directly over fire, and the children have plenty of space to share meals together. In addition to serving our current staff and students, this new and improved space will allow us to serve more children as the Lord brings them to CHO in the future.

Unexpected Blessing

Our ChristHope Orphanage students of all ages spent a few months together at the orphanage campus in Arusha during school shutdowns due to Covid-19. They worked, played, and learned as one big family.

Those attending secondary boarding school, beauty school, trade school, and university all joined our primary school-aged children, and everyone was

thankful that the shipment of new beds had arrived just in time for this unexpected situation.

Although everyone is grateful to be healthy and back at their respective schools, the shutdowns provided a unique and special opportunity for these orphans who consider themselves siblings to share each other's spaces and lives once more.

These photos show just a glimpse of their life together April-June, 2020.

Prayer Requests

- Please pray for funds to continue supporting our orphans after graduation as they get established. (See below.) Eliudi and our board feel we should support them for at least a few months after they complete their education and begin to work.
- The kitchen project is close to completion. Pray for the last \$5,000 for tables, chairs, utensils, and shelving to store foods off the floor.
- At this time most people who had planned mission trips to Tanzania have cancelled due to changed flight schedules or airline shutdowns. Pray for board members and ministry partners to be able to return in the near future. We will keep you updated about the next time someone is able to carry letters and gifts to sponsored children.

Praise Corner

School is now back in full session after the Covid-19 shutdown. None of our orphans or staff have been sick during the pandemic.

CHO children with new sheets and blankets to complete their beds

Beyond Education

As our oldest students complete various forms of higher education, it is important that we make sure they transition well into independence. They need somewhere to live when they leave school, a job with a company or a place to start their own business, and funds to purchase equipment and supplies for their work.

Currently we have one girl at university, one boy in accounting school, two girls in sewing school, one boy in masonry school, and three girls in beauty school.

Upendo and Gift's CHO sponsors provide for them to study sewing at Crower Trade School and will set them up with sewing machines and supplies to start their own businesses when they graduate.

These orphans do not have a home or family to go back to, so it is our responsibility to make sure they are well established. We pray each student will have the Lord's direction to follow His will for their life as they move forward into adulthood.
